Skills

Frontend: React, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS, Tailwind

Backend: Node.js, GraphQL, REST APIs, SQL, MongoDB

Testing & Tooling: Jest, Vite, Firebase, Sequelize, Mongoose

Platforms & Services: Vercel, Stripe, MySQL

Experience

Freelance

Fullstack/ Frontend Web Developer

March 2022-Current

- Designed, built, and deployed production Next.js applications using React and TypeScript, supporting real users in live environments.
- Led frontend architecture decisions including component structure, state management, and API integration to ensure scalability and maintainability.
- Collaborated directly with stakeholders to translate product requirements into UI/UX acceptance criteria and on-time deployments.
- Maintained and enhanced SPAs by implementing new features, resolving user-reported issues, and improving performance and usability.
- Integrated third-party services including Stripe payments, authentication, and database-backed APIs.
- Deployed and monitored applications on Vercel, managing environment configuration and release workflows.

XenoTech LLC/ BioIVT | Kansas City, KS

Scientist III/ ELN SuperUser

November 2021-November 2025

- Served as primary technical liaison between scientists, clients, and leadership, translating complex requirements into structured, compliant workflows.
- Acted as ELN (Electronic Lab Notebook) SuperUser, supporting internal tooling, process optimization, and user troubleshooting.
- Authored and reviewed FDA/EMA-aligned study protocols, demonstrating strong attention to detail, documentation standards, and regulated environments.

Pace Analytical | Lenexa, KS

Project Manager/ Safety Officer

May 2018-November 2021

- Managed cross-functional projects from intake through delivery, coordinating timelines, documentation, and compliance requirements.
- Acted as client-facing technical representative, ensuring accurate scoping, execution, and reporting.
